(54) Title: A PROCESS AND SYSTEM FOR PRODUCING OR GENERATING A MAP

(57) Abstract: The present invention relates to a process for generating a map of a hole of a golf course, the map including at least one graduation showing the distance between a pin and a fixed point on the hole, the process including the steps of taking a GPS reading of the location of the pin; and generating the map based on the reading. There is also provided a system to carry out the process of the invention, together with a map generated by the process of the present invention.
